

Notice to Citizens and Businesses With Storm Damage

There are two very important pieces of information you need to know about damage you may have sustained during either the flooding in mid-November or the most recent rain and wind storm:

For the November Flooding:

For those who suffered damage and made a report for the November flooding event (11/ 2 – 11/11), a Presidential Disaster declaration **HAS** been made for the State, and home and business owners in King County with uninsured losses should register with FEMA to see if they qualify for assistance.

To register, call FEMA at **1-800-621-3362** or on-line at www.fema.gov.

For the December 14th Rain and Wind Storm:

For those who have suffered damage to your home or businesses, the Seattle Office of Emergency Management strongly urges you to make a report to the King County Citizen Damage Report Hotline at **1-800-523-5044**. The collective damage reports received will be used in a request for federal disaster assistance. If a Presidential Disaster Declaration is made for the State and the County, private citizens may be eligible for financial help for uninsured losses in the form of small grants from Federal Emergency Management Agency and loans from the United States Small Business Administration.
